Internships

DevOps & Cloud Engineer — May 2025 – July 2025
Euonus IT Pvt. Ltd. — Jaipur
During my internship, I focused on enhancing operational efficiency and system reliability. I engineered and maintained automated CI/CD pipelines, containerized applications with Docker for improved consistency, and provisioned secure AWS infrastructure (EC2, S3, IAM), directly contributing to a more streamlined and secure development-to-production workflow.

Front-End Developer — June 2024 – July 2024
Prodigy Infotech Pvt. Ltd. — Remote
During my internship, I focused on improving front-end performance by developing and optimizing responsive web components using core web technologies. My responsibilities extended to the full stack, where I gained valuable experience assisting with back-end API integration, which was crucial for enhancing the application's overall data flow and functionality.

Digital Marketing — Nov 2024 – Dec 2024
SilverLabs Technologies Inc. — Jaipur
In multiple digital marketing roles, I managed and grew online presence by analyzing campaign metrics and user engagement data. This data-driven approach was used to refine content strategy, improve campaign ROI, and enhance web application visibility through SEO, providing a strong foundation in understanding the full user acquisition and engagement lifecycle.

Social Media Marketing — May 2023 – June 2023
ChatWise UK Ltd. — Remote
Successfully increased brand visibility and community interaction, targeted content strategies for multiple online platforms, driving significant growth by creating and precisely scheduling compelling content for key target demographic and psychographic profiles.

Social Media Marketing — Jan 2023 – Mar 2023
Akriti Jewels Inc. — Jaipur
Executed targeted digital campaigns that significantly boosted brand engagement and online visibility, demonstrating a strong, practical understanding of the complete user acquisition and content delivery lifecycle.

Projects

Indian Reserve Coin (INRC) - Decentralized Finance Solution | www.inrctoken.shop
I independently developed and deployed "INRC", an Indian-origin cryptocurrency to eliminate high conversion and trading fees for Indian crypto users. Built on Polygon using smart contracts via Remix IDE, it's live on Uniswap and works with MetaMask.

SayItForYou - Anonymous Messaging Platform | www.sayitforyou.fun
A web platform to help people express feelings anonymously to someone they admire, solving the real-world hesitation of emotional expression. It's a functional social tool with viral growth potential and monetization scope.

Professional Portfolio & Platform | www.abhisheksinghshekhawat.com
My personal multi-page interactive portfolio built to reflect my work, blogs, and professional offerings. It includes an integrated recruitment portal for internships and collaborations, all in one neat ecosystem.

Gyan Jyoti NGO - Education Portal | www.gyanjyotisevasamiti.org
Volunteered to build a full-featured dynamic website for a social NGO, showcasing their mission, activities, and outreach. Appreciated and awarded by faculty and the NGO for my contribution to a noble cause.

MissionDesk - Internship & Volunteer Platform | Link
A full-stack internship and volunteer recruitment platform I single-handedly developed to understand professional matchmaking systems. The MVP is live and applicants can still receive real responses from posted opportunities.

SeoSparkGPT & PragatiGPT | Link
Two AI-powered tools designed for SEO analysis and personal growth, built with real-time usability in mind. These live, accessible platforms demonstrate my practical application of AI to solve user-centric problems.
